this am.
meet any cars waiting to turn left
can you describe the driver
can you describe the car

****CROSS ON TAMMY PATTON**

Ms. patton you followed another car for some distance and time

[get her to describe distance and time again]

so how long were you behind this other car

other than it being a beige car what can you tell us abt. it

remember any of the lettering on the back

describe the shape of the taillights

did it have a squared off rear

was it a station wagon

was it four doors or two doors

it turned directly into brandon station ct. *or other way*

it was at this time that you noticed another car coming in

the opposite direction turning left in brandon stat. ct

[did she let the car turn in front of her] *yes*

can you describe the individual driving that car

was there more than one person in it

*Never
seen
person before*

Did you give a description

based on that view of the driver you looked at some pictures

det. church showed you

when church interviewed you was more than a year after you

had seen this car turn in front of you

what you told him was that you thought one of those pictures

looked the most like the person you saw

never told det. church that was the man I saw

simply said that of the pictures you were shown, that

picture looked the most like the man you saw

and you are not telling this jury that ronnie kimble is the

one you saw driving that car

you were not able to pick out the car

in fact you told mike ingold that you thought the car was a chevrolet cavalier

you know the difference between a camaro and cavalier don't you

and you told mr. ingold that the car was a black car, that you were sure abt. that
